

VILMA PONCE

I am Vilma, a QA Tester and Fullstack Developer. I have been actively working on personal projects to apply my skills. My focus on effective communication and empathy has allowed me to establish genuine connections with people in various environments. I am skilled in problem-solving and have the patience to handle delicate situations with tact and professionalism. My ability to stay organized, even under pressure, ensures the delivery of high-quality service. I am always willing to learn and adapt to new technologies and challenges. My passion is to provide exceptional customer service, and I am constantly seeking opportunities to train and develop my skills. My strength in teamwork allows me to collaborate effectively to achieve shared goals.
